

As a citizen and tax paying Indiana resideent, I applaud Steve Carter's fight for the DO NOT CALL listing. It is so enjoyable to spend evenings with my family and not have to answer the phone every 3 minutes to listen to a computer or recording. I very much am thankful to Mr. Carter for my new privacy and beg the FCC to please keep this Do Not Call list in force. It should be MY decision if I want to answer MY phone to listen to these sales and other calls, NOT their freedom to call, bother and annoy me in my own home.
